NOTIFICATION

Mr. Dennis J. DeVany, Chief
U.S. Department of Transportation
Essential Air Service Division
Office of Aviation Analysis
1200 New Jersey Ave. SE
Washington, DC 20590

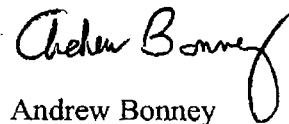

February 5, 2010

Dear Mr. DeVany

Hyannis Air Service, Inc., dba Cape Air hereby requests the Department's permission to switch two of our six daily Lebanon, NH Essential Air Service (Docket DOT-OST-2003-14822) flights from serving Boston, MA non-stop to serving White Plains, NY non-stop. This request is made in collaboration with the Lebanon City Council, which as you know unanimously requested this switch during its regularly scheduled session February 3, 2010. We request that the new LEB-HPN flights receive the full LEB-BOS segment subsidy of \$528.52 per departure. We will work with the Lebanon officials to reschedule our remaining 4x daily Lebanon - Boston service pattern optimally.

We appreciate the Department's flexibility and community-responsiveness in supporting this change of service pattern for Lebanon, NH's EAS.

Sincerely,

Andrew Bonney
